

# CHURCHILL II TRIP LIST 1986-2005

Smith's Longspur *Calcarius pictus* by Mimi Hoppe Wolf

Prepared by  
***Jeri M. Langham***

VICTOR EMANUEL NATURE TOURS, INC.  
2525 WALLINGWOOD DR., STE 1003, AUSTIN, TX 78746

This **CHURCHILL II TRIP LIST** is designed for VENT tours to Southern Manitoba, Thompson & Churchill led by Jeri M. Langham with either Gary Langham or Shawn Hayes as co-leader. It includes all 382 species that have been accepted by the Manitoba Ornithological Records Committee for the entire Manitoba Province as of 2001. Nomenclature changes, taxonomic order, and any recent splitting or lumping of families and common names in this list follows J. F. Clements' *Birds of the World: A Checklist*, 5th Edition, 2000, Ibis Publishing Co., with updates to December 2003. Species with an asterisk (\*) preceding their name, need written descriptions and/or photographs submitted to Rudolf Koes, 135 Rossmere Crescent, Winnipeg, MB R2K 0G1.

Before signing up for a tour, many participants like to know their chances of seeing certain birds; **column II** indicates how many of Jeri's **TWENTY previous tours** have seen each species. This number provides a very realistic idea of your chances of seeing your most wanted Manitoba birds. We have only been keeping records for mammals during the last thirteen years; therefore, column II on page 10 indicates how many of our **FOURTEEN** previous tours have seen each mammal species. **Column I** indicates the species seen (x) or only heard (h) in 2005.

Sometime after you sign up for **CHURCHILL II**, I will mail you the official, bound checklist (with sixteen additional columns per page) that we will use each evening to keep records of what we have observed.

Jeri M. Langham
