**SPRING BIRDING IN
CENTRAL AND NORTHERN SPAIN
April 25 – May 10, 2008**

Tour Leaders: Peter Roberts and Alberto Bueno

This was my 15th Spain tour for VENT. Alberto, my steadfast Spanish co-leader, and I tried a slight variation and extension to the itinerary in an attempt to show you even more of Spain and its birds than before. We rearranged our route to travel via Valencia to find, for the first time, the globally threatened White-headed Duck in its most northerly Spanish outpost. This worked well, with great views of these bright and distinctive ducks.

All the sought after species are nowadays just about guaranteed, and we know precisely when and where we'll find them—all helped enormously by Alberto's network of co-workers and birders that he consults for the latest information on the whereabouts of special birds, and options should our first locations fail. This worked well, as we enjoyed excellent looks at Spanish Eagle and "first day out" sightings of both bustards in Extramadura. Later, Alberto's local knowledge paid dividends when he arranged for bones to be put out for the Lammergeiers in Sierra De Guara, ensuring some wonderful, close perched and flight shots of this spectacular and unique raptor—the only ossophagous bird in the world (we all learned a new word on this tour!). Wallcreeper proved slightly trickier this year, but with back-up sites we had delightful views of a pair doing aerial displays, even if a little more distantly than we would have liked.

The weather was almost consistently great—not too hot, and rain only on our final afternoon as we headed back for Barcelona after finding our third new species (Long-eared Owl) for this tour's cumulative bird list, which now stands at 258 species. Fog and low clouds on our snowline venture into the Pyrenees reduced our fun a little, but even there the skies cleared just long enough for the Ring Ouzels to appear out of the mist.

A great group of enthusiastic and keen-eyed participants ensured a bumper year, with 217 species recorded, including an impressive 22 raptor species and 17 warblers. Everyone seemed to enjoy the wonderful variety of rural and fascinating habitats we encompassed, and appreciated that in order to do this, we had to cover a substantial amount of ground: about 2,250 miles in two weeks. And everyone had their favorite birds for various reasons, be they sentimental Hoopoes, iconic Wallcreepers, evasive Sandgrouse, subtle Azure-winged Magpies, flashy European Bee-eaters, or (for me) Dupont's Lark—that enigmatic symbol of the endangered steppe habitats—at dawn.

Free wine with evening meals certainly went down well, and our group unanimously felt that the idyllic little village of Lecina and the good food and cozy accommodations of La Choca were a grand finale.

April 25th. Outbound from USA for some towards Madrid

April 26th. Meet in Madrid, drive to Serrejon in Extramadura via Calera y Chozas, Oropesa and Tietar in Monfrague N.P: Both bustards and Eagle Owl.

April 27th. Monfrague region (National Park and Trujillo): Spanish Eagle, Cinereous Vulture, Pallid Swift, Spanish Sparrow, Azure-winged Magpie, European Roller.

April 28th. Serrejon to Valenica via Saucedillas, Embalse De Castrejon and Pedro Munoz: Black-shouldered Kite, White-headed Duck, Scops-Owl.

April 29th. Hotel Entrevinas to San Carlos De La Rapita, via Mirador De fonseca in Valle De Cabriell, Marjal De Moro wetland and Prat De Cabanes: Crested Tit, Collared Pratincole & Moustached Warbler.

April 30th. Southern part of the Ebro Delta: Mediterranean, Slender-billed & Audouin's Gull, Savi's, & Great Reed Warblers, Water Rail.

May 1st. Northern part of the Ebro Delta, then to Quinto De Ebro via Alcaniz and Urrea De Gaen. Shorebirds, Tawny Pipit, first Sandgrouse.

May 2nd. El Planeron Steppe Reserve, Osera in Monegros, Alfranca De Pastriz edging the river Ebro and lastly Lomaza steppes: Many larks including Dupont's Lark; many warblers including Spectacled Warbler; Penduline Tit, Booted Eagle.

May 3rd. Belchite steppes, then on to Siresa in the High Pyrnees via Candasnos, Ontinena, Sarinena Reserve and Piraces: Pin-tailed & Black-bellied Sandgrouse, Eurasian Thick-knee, Bearded Reedling, Black Wheatear.

May 4th. At Siresa, visiting Boca Del Infierno, Gabardito and Selva De Oza: Wallcreeper, first Lammergeier, Citril Finch, Firecrest.

May 5th. To the High Pyrenees at Belagua, via Anso, Roncal Valley and back via Zuriza & Linza: Honey-buzzard migration, Ring Ousel, Yellow-billed Chough and Rufous-tailed Rock Thrush in the clouds, Eurasian Treecreeper.

May 6th. Siresa to Lecina via San Juan De La Pena and Salto De Roldan: Ortolan Bunting, Black Woodpecker, Eurasian Jay, close vultures and Red-billed Chough, distant Bonelli's Eagle; Tawny Owl.

May 7th. Walking at Lecina and a short excursion to Sarsa De Surta: Subalpine, Orphean, Bonelli's, Sardinian of warblers, Wood Lark, more Lammergeier, Red-backed Shrike.

May 8th. Birding at Lecina, then to La Choca Gorge, Vadiello, San Julian de Banzo massifs, Loporzano, Sipan and finally Santa Cilia: Dartford Warbler, Alpine Swift, Peregrine, many more vultures, great Lammergeiers.

May 9th. Lecina to Barcelona via stops along the Cinca & Ebro Rivers and steppe areas of Binefar, Maquinenza and La Granja d'Escarp: Eurasian Hobby, Long-eared Owl, Kinfisher.

May 10th. Start of homeward journeys for some.
